

SITUATION REPORT

MARCH TORNADOES - SOUTHERN U.S.

April 6, 2023

SITUATION

From March 24-25, a powerful line of thunderstorms swept through the southern United States, spawning at least 20 tornadoes. Across multiple states, tornadoes and strong winds damaged buildings and knocked out electricity. The largest tornado was an EF-4 that traveled through Rolling Fork, Miss.

RESPONSE

Lutheran Disaster Response is supporting the Southeastern Synod to address the immediate needs of disaster survivors in Mississippi, Alabama and Georgia through local congregations and partner organizations. The synod is also providing emotional and spiritual care to both survivors and responders.

Amory, Miss.
